

A large, solid orange oval shape that serves as a background for the text.

Why we need CI/CD

Does your
team ?

Spend most time in testing code ?

Face lot of challenges when a code is merged ?

Doesn't meet deadlines due to trivial issues ?

Is not able to make customers happy ?

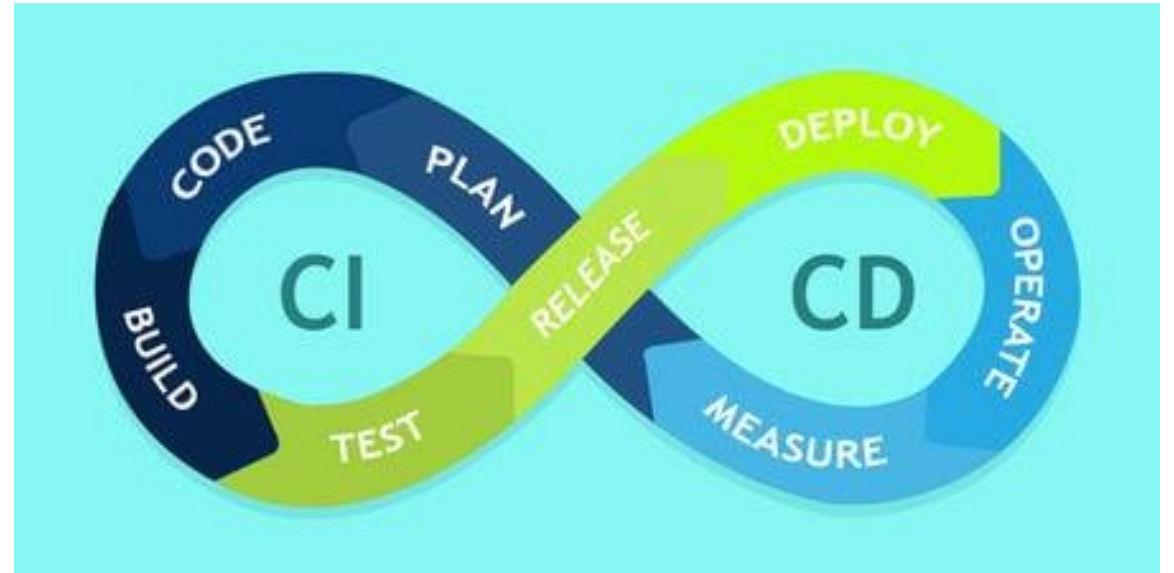

Feel the need of monitoring tools ?

Need more Transparency and Accountability ?

Want to reduce costs?

What is CI/CD?

-
- CI/CD is a method to frequently deliver apps to customers by introducing automation into the stages of app development. The main concepts attributed to CI/CD are continuous integration, continuous delivery, and continuous deployment.

Benefits of CI/CD

Superior Code
Quality

Reduced Changes
& Review Time

Accelerated
Release Cycles

Fault Detection &
Isolation

Enhanced Test
Reliability

Reduced Backlog

Improved Mean
Time To
Resolution (MTTR)

Cost Deduction

Enhanced
Transparency &
Accountability

Boosted Customer
Satisfaction

Enhanced
Performance
